A-Z of Recycling

We have two main streams of waste at both of our campuses; mixed recycling and non-recyclable waste.

In our buildings on both campuses, green bins are generally used to collect the mixed recycling and black bins are generally used to collect non-recyclable (general) waste. Signs are present on both types of bins clearly indicating the types of waste which can be placed in these bins. Outside of the buildings on both campuses we have split bins for recyclable and non-recyclable (labelled as general) waste. The same types of materials can be placed in these bins as the inside bins. It is important that the correct types of waste materials are placed in the bins as they are treated differently once they leave our campuses.

- Recyclable waste is sorted at a dedicated Materials Recycling Facility. The
 different waste materials such as bottles, paper and cans are then baled and
 sent off to be recycled into respective products.
- Non-recyclable waste is taken to an Energy Recovery Facility, where the waste is processed into energy.

A-Z	Waste	How to recycle, generate energy of	r dispose of:
A	Aerosols	If these are empty they can be recycled. Please place in the mixed recycling I UK no longer contain CFCs, they do propellants, so where possible try to pump action sprays.	oins. Although aerosols in the contain other ozone depleting
	Aluminium cans	Please see cans.	
	Aluminium Foil	Please place clean foil in the mixed placed in the non-recyclable (genera	
В	Batteries	Battery boxes are located in most buildings on each campus, where students and staff can dispose of batteries. When full, please follow the instructions on the boxes for collection. Battery boxes can be found in the following locations:	
		BOC	BRC
		Academic building ground floor	St Michael's House first floor
		University House ground floor	The Dome first floor
		Outside Otters Restaurant	The Dome second floor
		Music ground floor	John Parry Foyer
		New Hall ground floor x 2	LRC ground floor
		LRC foyer	Tech Park ground floor
		If you have a battery that is too large the "Support Me" link on the Staffnet taken to be disposed of.	
	Books	Books and journals from your depart reused or recycled. Alternatively please use the British H banks on each campus. The bank a	leart Foundation Charity Donation
		the bank at BOC is by the laundry.	t 5. to lo at the back of Longorook,

	T	
	Bulbs	If you have a bulb, fluorescent tube or lamp that needs changing, please
		use the "Support Me" link on the Staffnet or Moodle to report the
		problem. To dispose of a specialist bulb, i.e. from projectors, use the
		"Support Me" link on the Staffnet or Moodle and ask for this to be collected.
С	Cans	Please place drinks cans or tin cans in the mixed recycling bins.
	Cables	Do not place in the recycling or general waste bins. Use the "Support
		Me" link on the Staffnet or Moodle and request these to be collected.
	Cardboard	Please FLAT-PACK all boxes and take to a mixed recycling bin situated
	Jaraboura	around campus.
	Carrier Bags	Carrier bags cannot be recycled unless they are made of paper. Please
		consider using a reusable carrier bag when you go shopping.
		Remember you will now be charged for each plastic bag. You are able
İ		to return unwanted carrier bags to your local supermarkets for recycling.
		If you need to dispose of plastic carrier bags on campus, please
		place in the non-recyclable (general waste) bins.
	Cartridges	Forward to either BOC or BRC Reprographics.
	CDs	Please forward to IT for shredding.
		Music and non-data CDs can be placed in the British Heart Foundation
		charity donation banks on each campus. The bank at BRC is at the
		back of Longbrook, the bank at BOC is by the laundry.
	Christmas Cards	Christmas cards generate a lot of waste, so please recycle them or
		consider sending them electronically. Many local shops and
		supermarkets provide recycling containers specifically for cards after the
		Christmas period.
		Alternatively, please place them in the mixed recycling bins.
	Cling Film	This cannot be recycled and should be placed in the non-recyclable
	Ciling Fillin	(general waste) bins.
	Clinical Waste	Please see Hazardous Waste.
	Clothing	Please see textiles.
	Coffee cups	Empty coffee cups and their lids can be recycled and should be placed
		in the mixed recycling bins.
	Computer Equipment	Please see IT.
	Confidential	Smaller quantities of confidential waste can be shredded. Larger
	Waste	quantities of confidential waste can be disposed of through the
		Confidential Waste Units located in most office areas. Use the "Support
		Me" link on the Staffnet or Moodle if you have large quantities of
		confidential waste requiring disposal.
	Crisp	Please place in the special crisp wrapper recycling bins in the LRCs, or
	packets	if this is not feasible in the non-recyclable (general waste) bins.
	hacvers	in this is not leasible in the hon-recyclable (general waste) bills.
	Drinks cartons	Please place in the mixed recycling bins.
D	(cardboard	. 1989 p. 890 iii dio filmod 1997 sinig billor
	based)	

E	Electronic and electrical equipment (WEEE)	Please DO NOT put electronic or electrical waste into the general waste bins. Some of this waste is classed as hazardous and all electronic and electrical equipment disposal is covered by legislation. Please use the "Support Me" link on the Staffnet or Moodle when you have any electronic or electrical waste for disposal. This includes: • Fridges & freezers • Telecoms & computer equipment • Small appliances • Large appliances • Cables, leads and plugs (Don't forget that all electrical equipment still in use needs to be PAT tested annually. Contact the H&S Manager on extension 6488 for details).
	E-cigarettes and vapes	E-cigarettes and vapes contain a lithium battery. These can cause fires if disposed of incorrectly. Please take them to the ZEE Bar where bar staff will place them in the correct bin.
	Envelopes	Where possible reuse these internally; otherwise they can be recycled. Please place in the mixed recycling bins. If possible remove any plastic film or windows.
F	Fluorescent Lamps	See bulbs. Please DO NOT put fluorescent tubes in the non-recyclable (general waste) bins. Fluorescent tubes are classed as hazardous waste and must be disposed of via a specialist contractor. Please use the "Support Me" link on the Staffnet or Moodle when you have any to dispose of.
	Food Waste	In Otters restaurants please place uneaten food in the designated food waste bins. Food waste is also collected in the restaurant kitchens and from plate scrapings. In Fishbourne Halls (from September 2025) please put food waste in the caddies in the kitchens.
		Outside of the restaurants and Fishbourne, please place food waste in the non-recyclable "general waste" bins. Community fridges are available at both campuses to reduce food waste. Short-dated food is put in the fridges late afternoon from the Costa outlets, Otters restaurants and The SU Shop at BOC. During term time this food is available FOC to students. Outside of term time this food is available FOC to all of the university community.
	Food Tins	Please clean and place in the mixed recycling bins.
	Furniture	Where possible furniture is reused on campus. Otherwise it should be collected by the supplier of new furniture for onward recycling. Please use the "Support Me" link on the Staffnet or Moodle if you have unwanted University furniture for removal.
G	Glass	Glass can be placed in the mixed recycling bins. Most halls of residence have separate glass bins which can still be used.

.,	11 1 347 1	Disease DO NOT with sease 1 1 1 AND/12 1/1 1/2
Н	Hazardous Waste	Please DO NOT put hazardous waste in ANY bins. It must be disposed of separately in accordance with hazardous waste legislation.
		Please use the "Support Me" link on the Staffnet or Moodle to arrange for disposal.
		This includes:
		ChemicalsLaboratory waste
		Clinical waste
		PaintsBulbs and fluorescent tubes
		Batteries
		Fridges and FreezersFeminine hygiene.
ı	IT & computer	Please DO NOT put IT waste in any non-recyclable (general waste)
	equipment	or mixed recycling bins.
		Please contact the IT department for advice on extension 6222 or use the "Support Me" link on the Staffnet or Moodle.
J	Junk Mail	You can take your name off mailing lists by visiting the web page of the Mailing Preference Services(www.mpsonline.org.uk). Any junk mail received should be placed in the mixed recycling bins.
K		
L	Laboratory Waste	Please see Hazardous Waste.
	_	Please place in the non-recyclable (general waste) bins.
	Lever arch files	Unwanted lever arch files can probably be used by other members of
	Lever aron mes	staff or students. If you can't find anyone who wants them, please place in the non- recyclable (general waste) bins.
	Light Bulbs	These are classed as WEEE. Please use the "Support Me" link on the Staffnet or Moodle and ask for the light bulb to be collected for recycling.
М	Magazines and	Please place in the mixed recycling bins.
	Catalogues	
	Medicines	Medicines/drugs are classed as Hazardous waste and unused, out of date, orno longer required medicines need to be taken back to a pharmacy for safe disposal.
	Metal	Many metals have an economic value and where we recycle, we can
		potentially generate some income, which all goes to providing the service. Please break any metal objects down to the smallest unit possible and take to a metals skip. Contact the caretakers to ask them to open the skip.
	Mobile Phones	Return your phone to the shop of purchase or enquire at your
		local supermarket which may have a scheme for collecting mobile phones. Alternatively please use the British Heart Foundation donation banks.
		Please return work phones to your Manager.
N	Newspaper	Please place in the mixed recycling bins.
